GENERAL ASSEMBLY AUDIT PROGRAM (GAAP) - 2000

I. *Background and Purpose*

The State Elections Enforcement Commission is authorized by Section 9-7b of the Connecticut General Statutes to inspect the campaign finance reports filed with the Secretary of the State as well as the municipal town clerks offices, and to audit the accounts of records of campaign treasurers.

The Commission's audit program is intended to ensure compliance with the campaign finance requirements, inform committee treasurers of their duties and responsibilities, and provide meaningful information about campaign finance practices to the Commission.

II. *Scope*

The General Assembly Audit Program is to review for compliance with Chapter 150 of the Connecticut General Statutes.

III. *Procedure and Methodology*

Selection Process

All Senatorial candidates for the November 2000 election were selected for review. The House candidates will be divided into two sets according to odd and even numbered districts, one set will be reviewed and if time permits the second set will also be reviewed. The odd numbered districts were selected for review first.

Review Process

The review process of each committee is to be completed by Dara Haqq and Dianna Kulmacz. The candidate committee's Statements of Receipts and Expenditures as well as Registration forms filed with the Secretary of the State's Office will be copied from "File-It" and reviewed at the office of the State Elections Enforcement Commission. Committees that reside on "CFIS" will be reviewed when the filed data can be extracted properly. "File-It" is the Secretary of State's on-line database of imaged copies of each committee's campaign finance reports. "CFIS" is the Secretary of the State's on-line database of electronically filed campaign finance reports and registration information of all committees established in Connecticut. Committee filings that reside on CFIS will be reviewed when the data can be properly extracted.

Candidate and Committee Reviews

A total of 356 candidates were reviewed in conjunction with the General Assembly election held in the year 2000. Of that amount, 72 were candidates for State Senator and 284 were candidates for State Representative.

The 72 Senatorial candidates were all sent correspondence regarding their campaign finance filings. Sixty-three candidates registered candidate committees with the Secretary of State's Office and each received an audit report detailing

GENERAL ASSEMBLY AUDIT PROGRAM (GAAP) - 2000

errors and violations discovered in the reporting of the committee's transactions. Additionally, nine candidates correctly completed form B-4, *Certification of Exemption from Forming a Candidate Committee*, and these candidates received letters notifying them of the review.

The 284 State Representative candidates were also all sent correspondence regarding their campaign finance filings. 245 candidates registered candidate committees with the Secretary of State's Office and each received an audit report detailing errors and violations discovered in the reporting of the committee's transactions. Five of these candidates also established exploratory committees, which were reviewed, and audit reports were generated in regards to their filings. Additionally, 39 candidates correctly completed form B-4, *Certification of Exemption from Forming a Candidate Committee*, and these candidates received letters notifying them of the review.

V. Findings

1. Observations Involving Campaign Treasurers:

- a. There were more (significant) reporting errors found in the General Assembly committees compared to the municipal committee filings. One hundred and four committees (34%) of three hundred and eight candidate committees required corrective action.
- b. Numerous instances in which ad booklet purchases from individuals and on-going political committees exceeded \$50 were not reported as contributions.
- c. Ad booklet space purchased by businesses exceeded \$250 without returning the excessive amounts.
- d. Treasurers lack complete control of the use of campaign funds. Several instances in which the use of funds were influenced or pressured by candidates.
- e. Multiple instances in which itemization of candidate expenses were not disclosed in Section P, Campaign Expenses Paid by the Candidate, of the statement.
- f. Treasurer's responsibilities are de-emphasized when their voluntary services are requested.
- g. There appears to be confusion amongst treasurers in regards to the significant differences between a "business entity" and "sole-proprietor" for campaign finance purposes.
- h. Majority of treasurers and candidates are very pleased that the Commission staff have reviewed campaign finance filings and have staff contact for future questions.
- i. Few instances where treasurers accepted prohibited lobbyist contributions (\$1950) during legislative session.
- j. Significant portion of prohibited and excessive contributions resulted from the acceptance of outright business entity contributions or excessive ad space purchases from "persons."

GENERAL ASSEMBLY AUDIT PROGRAM (GAAP) - 2000

- k. 32 committees (10%) have not complied with the corrective action outlined in their audit report.
- 2. **Observations Involving Repository (Secretary of the State):**
 - a. There were problems with the initiation of the electronic filing CFIS system that were subsequently addressed, with much needed improvements made to the system. However, substantial problems and shortcomings continue to exist.
 - b. The Office of the Secretary of the State consistently refers non-filers to this agency and late-filing fees are regularly collected from treasurers as required by Section 9-333 of the Connecticut General Statutes.
 - c. It was found that campaign finance filings were appropriately date and time stamped upon receipt.
- 3. **Access to Information:**

Information was easily attainable from the Secretary of the State's office which is generally obtained through its website. When additional information was needed or there were questions regarding certain campaign filings, our requests were promptly and efficiently responded to.
- 4. **Statistical Highlights**
 - a. 356 candidates were reviewed and raised a total of \$7,004,294.24 compared to projected amount for municipal races of \$11,106,667.44 for a projected number of 1,053 candidates.
 - b. 72 Senatorial candidates raised \$2,885,818.91; Average of \$40,080.82 per candidate.
 - c. 284 State Representative candidates raised \$4,118,475.33; Average of \$14,250.78 per candidate.
 - d. Incumbents elected in 98% of races; Raised approximately 3.5 times the amount of money as their challengers.
 - e. 2 Senate Open seats; Winners outspent losers in excess of 1.5 times.
 - f. 13 State Representative Open seats; Losers outspent winners by approximately \$17,000 in total, however, Average amount spent by winners \$21,485.00 versus Average amount spent by losers \$10,980.00 for these open seats.
 - g. Highest amount raised by candidate for Senate; \$215,129.84 by challenger; Incumbent raised \$145,209.52; Challenger won.
 - h. Highest amount raised by candidate for State Representative; \$85,731.01 by incumbent; Challenger raised \$2,525; Challenger won.

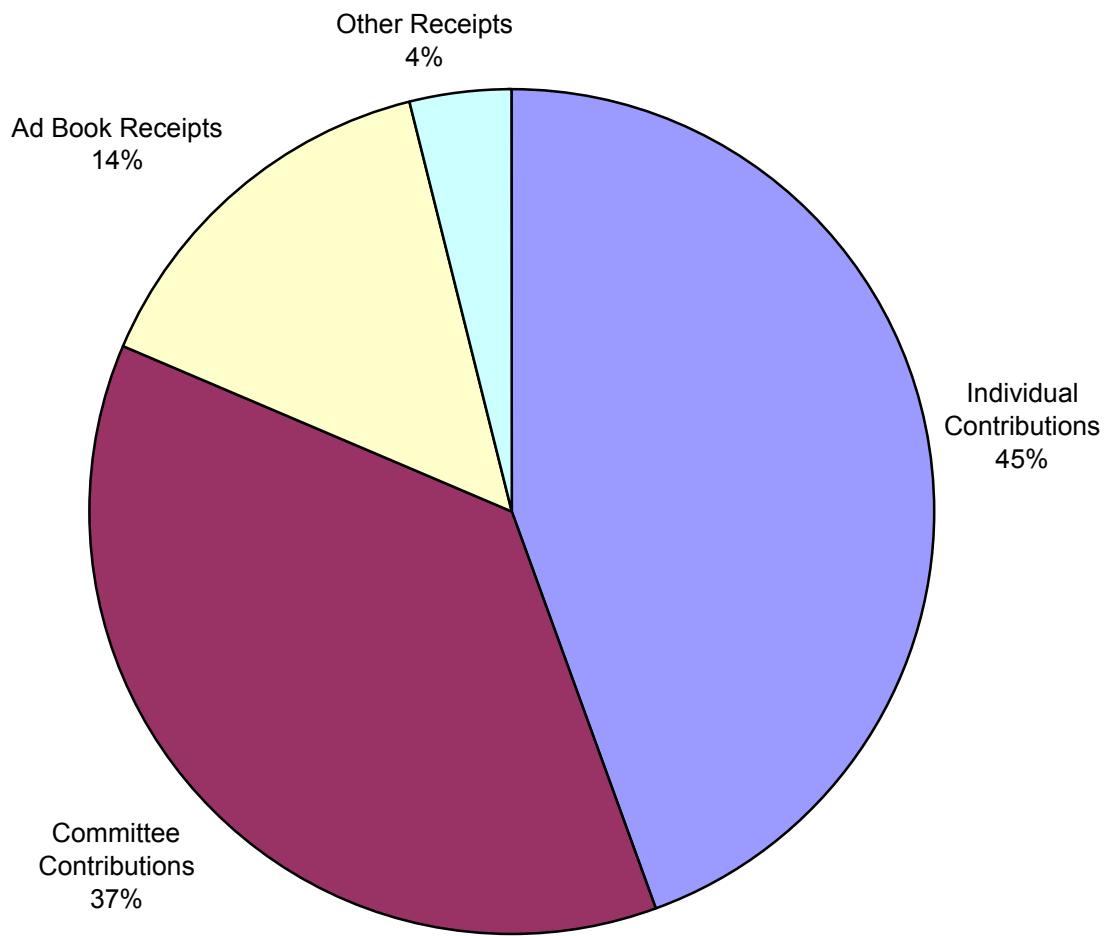

V. Recommendations

- 1. Treasurers must increase efforts to comply with corrective action required of them.
- 2. Increase education awareness concerning treasurer's responsibilities and the importance of proper completion of disclosure statements.

GENERAL ASSEMBLY AUDIT PROGRAM (GAAP) - 2000

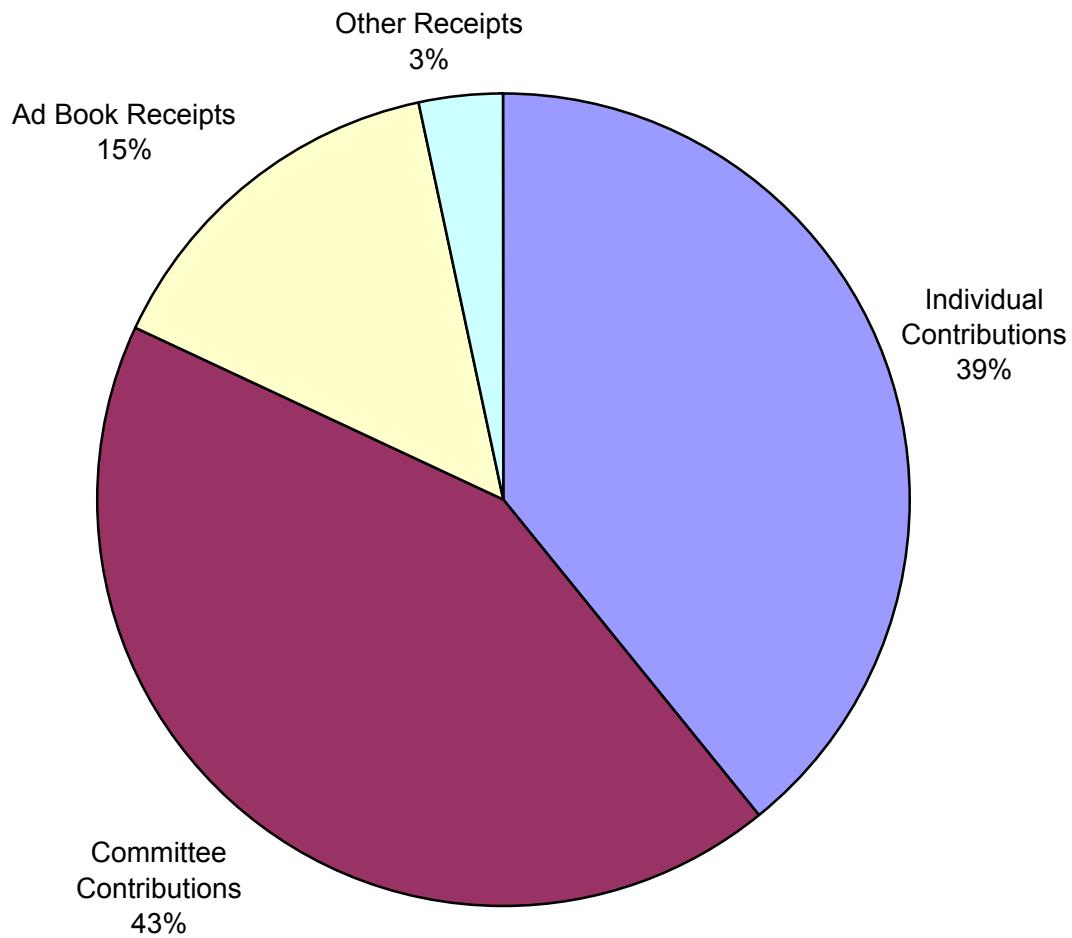

- Continually audit General Assembly candidates until there is a significant improvement in reporting errors and compliance levels.
 - Steps will be implemented by this Commission to obtain full compliance from committees in which corrective action is required of them.
 - Increase advertisement of campaign finance seminars given by the Commission every summer.
3. Improvements need to be made to the Secretary of the State's CFIS system before the next gubernatorial and other statewide elections.
